STANDARD COLOURS AND FINISHES FOR STEEL COMPONENTS

Below you will find our range of standard colours and finishes for steel components*. We can also supply other colours upon your request. The standard steel colours are intended for use on our steel products, but can also be used on wooden products, enabling you to match wooden products with steel products.

Please note that colours printed on paper can never be perfectly reproduced but only give an indication of how the colours will look on a piece of furniture. For this reason, you are welcome to request colour samples painted on steel.
